

HeadWay Victoria partners with Country Grocer to raise awareness and funds for those living with epilepsy on Vancouver Island

March 1, 2019

FOR IMMEDIATE RELEASE

VANCOUVER ISLAND — HeadWay Victoria Epilepsy and Parkinson's Centre Society has once again teamed up with Country Grocer for the annual Purple Month campaign, which raises awareness about Epilepsy.

For the entire month of March 2019 Country Grocer will be selling Purple Bouquets for Epilepsy Awareness, as well as boxes of Waterbridge – Occasions | English Chocolate and Toffee Assortment. \$2 from the sale of each item will support Vancouver Islanders who are living with Epilepsy. You can purchase those items at any of Country Grocer's 7 island locations.

Epilepsy is a common neurological disease that can affect anyone at any time, it does not discriminate. There are nearly 800,000 people living on Vancouver Island and it is estimated that 1 out of every 100 people is afflicted with seizures. That's an astonishing 8000 people living with epilepsy in our communities.

HeadWay Victoria supports those living with epilepsy and also provides services to their caregivers, families and friends. HeadWay Victoria knows that epilepsy not only affects the lives of those living with it, but also their support network. HeadWay offers services of support, care and knowledge, and also provides education services to help islanders learn more about epilepsy and how to keep someone who is having a seizure safe.

Country Grocer is a locally owned and operated business that has been a part of Vancouver Island for more than 30 years! It has rightfully earned a reputation as a truly local company with a powerful commitment to our local communities and to island businesses, including working with island farmers, growers and producers.
